

ABCO 2 Section Exam C Couch

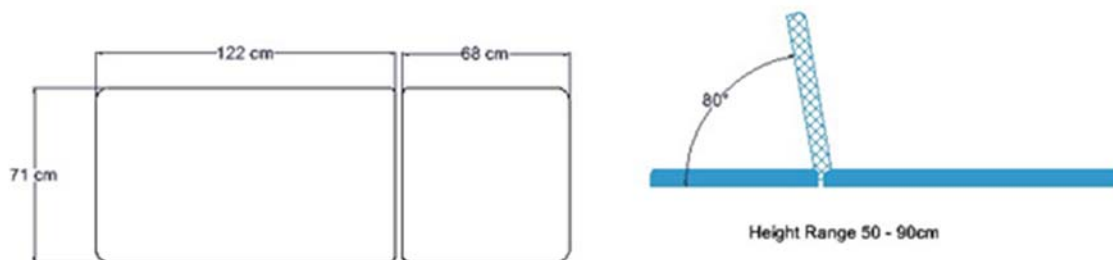

- The ABCO Exam C 2 section Couch has been designed and manufactured in Australia utilising the latest technology as a strong, stable couch with fewer moving parts and potentially risky pinch points
- As such, it is long enough and wide enough for most patients. The minimum height of 50cm makes access for frail or disabled patients easy.
- The braked castor system makes moving the couch easy without compromising stability in use.
- Alternatively, a base without wheels is available for situations where the couch will not be moved regularly
- A comprehensive range of factory fitted options allows you to specify the best configuration for your requirements.
 - Accessory cot sides and gynaecological stirrups can also be fitted.
- The height and backrest are electrically adjusted using a hand control.
- While the lifting capacity of 350kg may rarely be required, the robust structure required to support this capacity ensures a long, trouble-free life

Product Code: **EX20.07121.CE000H.00310**

Standard Configuration	Factory Fitted Options
75mm braked castors	No wheels
Hand control	Foot control
	Twin foot or hand control
	Add Breathe Hole with plug in backrest
